Introducing

# AURIPLUS™

Essential oils to improves feed value

AURIPLUS is a scientifically formulated blend of natural essential oils designed to enhance immune function, optimize digestion, and promote overall health in animals. By leveraging the potent bioactive properties of medicinal plant extracts, AURIPLUS offers a safe, natural, and effective alternative to synthetic growth promoters, ensuring better weight gain, disease resistance, and feed efficiency.

## Composition

Each 100ml contains:

Ocimum sanctum oil	8 gm
Cinnamomum tamala oil	2 gm
Eucalyptus oil	8 gm
Cedrus deodara oil	2 gm
Azadirachta indica oil	5 gm
Pongamia pinnata oil	5 gm
Cymbopogon citratus oil	12 gm
Curcuma longa oil	2 gm

# AURIPLUS™

Essential oils to improves feed value

## Mode of Action

### Provides Metabolic Support

Cinnamomum tamala, Ocimum sanctum helps detoxify and protect vital organs like the liver, enhancing the metabolic rate and energy efficiency, ultimately aiding in growth.

### Improves Digestive Health

Curcuma longa oil, Cymbopogon citratus, and Azadirachta indica oil support better digestion, ensuring that animals can efficiently absorb nutrients from their food.

### Anti-inflammatory & Antioxidant Action

Curcuma longa oil, Ocimum sanctum and Cedrus deodara reduce inflammation and oxidative stress, promoting healthier growth by ensuring better organ function and metabolic processes.

### Antimicrobial Action

Essential oils in AURIPLUS possess antibacterial, antiviral, and antifungal properties, inhibiting the growth of harmful pathogens in the gut, Reduces disease burden and promotes a healthier microbiome, improving overall gut health.

### Immune System Support

Curcuma longa oil helps strengthen the immune system, ensuring healthy growth and protection from diseases.
